Statement from Chevron Malaysia Limited

Chevron Malaysia Limited (“Chevron”), which markets the Caltex® retail brand in Malaysia, is pleased to announce that a retailer’s employee working at a Caltex® station in Taman Sri Mahkota Aman, Jalan Gambang, Kuantan, Pahang who was a ‘Person Under Investigation’ (PUI) and classified as a suspected case for COVID-19, had tested negative for the infection.

As a pre-emptive measure, the retailer will undertake to thoroughly clean and sanitise the station by an environmental and regulated waste management company, following the guidelines from the Ministry of Health (MOH), after which the station will resume its operations as usual.

Chevron’s priority remains the health and safety of our workforce and customers. We remain committed in providing quality service to our customers and ensuring continuity of fuel supply during these uncertain times.
