

## website statement

### **Statement from Chevron Malaysia Limited**

Chevron Malaysia Limited (“Chevron”), which markets the Caltex® retail brand in Malaysia, is pleased to announce the re-opening of the Caltex® station (“E Mart Solution”) in Benut, Simpang Renggam, Johor. This is following the directive from the Government to lift the Enhanced Movement Control Order (“EMCO”) in select areas of the Simpang Renggam region on 28 April 2020, in which a ‘cooling period’ is to be observed thereafter until 5 May 2020.

In accordance with the Ministry of Health (“MOH”) advisories, the retailer of E Mart Solution has undertaken to thoroughly clean and sanitise the station by an environmental and regulated waste management company as well as to ensure that station staff comply with appropriate health and safety guidelines in place.

Chevron’s priority remains the health and safety of our workforce and customers. We remain committed in providing high quality products and services to our customers and ensuring the continuity of fuel supply during these challenging times.
