

## website statement

### **Statement from Chevron Malaysia Limited**

Chevron Malaysia Limited (“Chevron”), which markets the Caltex retail brand in Malaysia, confirms that two of our retailer’s employees working at a Caltex station in Bedong, Kedah, has tested positive for COVID-19 on 7 and 10 December 2020. The individuals are currently receiving appropriate medical attention. Our thoughts are with the retailer’s employees and families, and we wish the employees a full and speedy recovery.

Our primary concern is the health and safety of our workforce and customers. The station has undergone thorough disinfection and sanitisation, and is temporarily closed until further notice. Both Chevron and the retailer will continue to work closely with the Ministry of Health (MoH) to implement any further measures as required. Meanwhile, our other Caltex service stations remain open and our retailers continue to operate as usual, with appropriate Standard Operating Procedures (SOPs) in place.

Chevron remains committed in providing quality service to our customers and ensuring continuity of fuel supply during these uncertain times.
